

Post-Deadline Program

POSTERS

1. **Measurement of optical thickness of thin films using white light interference pattern** Anton Dyachenko, Saratov State University, Russia
2. **Longitudinal spatial coherence effects of optical fields in high resolution interference microscopy** Smirnov Ilya, Lychagov Vladislav, Alexander, Vladimir Ryabukho, Lyakin Dmitry, Saratov State University, Institute of Precision Mechanics and Control, RAS, Russia
3. **New approach to rogue wave generation in optical fibre** Marta Dorokhova¹, Andrey Konyukhov²,
¹Saratov State Technical University; ²Saratov State University, Russia

INVITED INTERNET LECTURE

1. **Singular optics in biomedicine** Sean Kirkpatrick, Michigan Technological University, USA
